

The logo for Okéanos features the brand name in a sans-serif font. The 'O' is a large, light blue circle. A blue wave graphic starts from the left, passes behind the 'O', and then curves under the rest of the name. The letter 'o' is highlighted in yellow, while the other letters are in a medium blue color.

FIBERGLASS POOLS

ABOUT US

Okeanos Fiberglass pools was born in our factory in Beauce, Quebec.

We have been active on the European market for over 35 years and on the North American market for over 10 years as manufacturers and installers.

Okeanos fiberglass pools has accumulated 35 years of knowledge in fiberglass pool manufacturing and installation. This experience created the only pool in the industry that does not require a concrete collar and also can be completely backfilled without having to fill the pool with water. This makes the installation process faster and more efficient, also reducing costs on hardscaping and tailoring the pools to a wider customer base.

Okeanos fiberglass pools regularly upgrades our pool models as to always offer the latest trends in pool design. From classical to trendy modern designs, flat bottom or slopped, Okeanos Pools have the flexibility to create pools that will adapt to your needs.

Experience the beauty and durability of **Okeanos Fiberglass pools**.
