MANUFACTURING

Each Okeanos pool is manufactured in our facility in Beauce, Quebec, using a unique and proven production process. From the application of N.P.G. gelcoat to the multilayer fiberglass and resin structure, every step is carried out under strict temperature and humidity control.

Our materials, including vinylester, isophthalic, and orthophthalic resins, are sourced from leading North American suppliers. Reinforced with structural supports and finished with precision, each pool undergoes rigorous quality control to ensure exceptional brilliance, strength, and long-lasting performance.

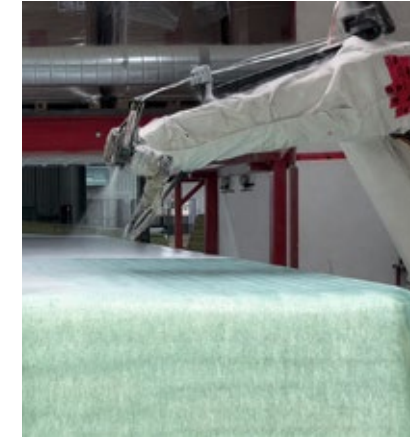

Excellence is not just our standard, it is our signature.
